ONE CENT.

TEDDY'S VANITY IS TAIT'S THEME IN TOUR OF OHIO

Crowd Howls with Delight as
President Assails "Oyster
Bay's Best Bet."

FACTS, LESS LUNGPOWER

Red Fire and Cheers Greet Native
Son at Steubenville at
Night Speech.

Cambridge, Ohio, May 13.—Casting to the winds his policy of defense, President Taft, in a whirlwind of verbal aggression, assailed Theodore Roosevelt here to-day and denounced him as a dangerous egotist, a "flatterer," and a "demagogue."

A crowd of several thousand bowed their delight when the President put stings and slashes into almost every word.

Mr. Taft began to take the offensive back at Caldwell, where he devoted most of his speech to the most bitter arraignment he has yet made of Col. Roosevelt, and his relations with Director Perkins, of the Harvester and Steel trusts, and the immunity which these two interests enjoyed during the regime of the colored. Even the members of the President's own party were amazed when he walked out on the platform at Cambridge, and, speaking of his late friend, cried: "It's I, I, I, all the time. I'd suppose there wasn't anybody in the country who could do this job but Mr. Roosevelt. Suppose you feel that egotism and vanity and put him in a class with a sense of power and a disregard of constitutional restrictions."

"It would be dangerous to the country," he said, "if the man is a demagogue and a flatterer who comes out and tells the people they know it all. I hate a flatterer. I like a man to tell the truth straight out. I hate to see a man try to honeycomb the people."

At another point Mr. Taft cried: "If I have done anything wrong, why don't you call for an indictment. Let's have a few facts and less lurid headlight and lung power."

Remembrance to Lincoln.

Another indictment that Mr. Taft brought against Roosevelt was the charge that he is conducting a libelous campaign. "Mr. Roosevelt is continuously comparing himself to Lincoln," he said, "and he is reminding the people of the man whom I know in the history of the country," the President continued.

Red fire, cheers, and more enthusiasm than the President has seen since his second invasion of Ohio greeted him at Steubenville to-night. With Market Street blocked from curb to curb with thousands of people, the President delivered his last speech of the day. Although his voice rasped from the exertion, he made earlier in the day, Mr. Taft continued to slam Roosevelt and boost Taft administration.

The President will remain here to-night and take up the campaign again early to-morrow. East Liverpool will be the first stop.

Through three districts of Ohio Taft showed his fighting spirit, assailing Roosevelt at every point. Entering the State with the speech at Marietta, he visited two points in the Fifteenth District, making a total of three. From there he went to Cambridge, Newcomerstown, and Dennison, and motored over to Uhrschville in the Seventeenth District. The latter part of the day was spent in the Sixteenth District, where he made stops at Steubenville, Balfour, and Bridgeport before the engagement at Steubenville was kept. Most of this territory is as yet considered doubtful ground.

Brownsville Affair Again.

It became known to-day that a strong bid will be made by the Taft managers for the Ohio colored vote through raking up the Brownsville, Tex., shooting, and members of the Twenty-fourth Infantry have been imported into the State to campaign with Representative Henderson. One of these colored troops is Sergeant Mino Sanders, who was dismissed after twenty-five years' service. Another is Private Ballard.

When Col. Roosevelt enters Ohio to-morrow morning at Steubenville at 11:45 o'clock he will miss a collision with the President by only three hours, as President Taft leaves at 1:30. The President's managers are endeavoring to think what might have occurred had the two happened to come together. Roosevelt will cover some of the territory that the President did to-day.

PRESSMEN IGNORE PRESIDENT'S CALL

Los Angeles Mechanics Refuse to
Strike on Hearst's Paper on
Pacific Coast.

Los Angeles, Cal., May 13.—The pressmen of the Los Angeles Examiner will ignore the call of President Barry, of the International Web Pressmen's Union and remain at work. It is understood that their contract, which was signed about a week ago, carried a raise in wages.

Chicago Strike Quiet.

Chicago, May 13.—Fewer arrests were made to-day in the newspaper strike than on any day since the beginning of the trouble. The action of the Typographical Union yesterday in voting against joining the pressmen and stereotypers in a sympathetic strike had a discouraging effect on the strikers and their friends. "Pickets" volunteering to prevent the street sales of newspapers were not as aggressive as on previous days.

Boston Pressmen Lean to Strike.

Boston, May 13.—A meeting of pressmen of the Boston American has been called to-day to act on a call issued by President Barry, of the International Web Pressmen's Union for a strike in sympathy with Chicago pressmen. Pressmen who would be called on they did not favor a strike in this city.

CHRIST WAS AN ATHLETE.

Boston, May 13.—In a speech before St. Andrews Brotherhood here, Anthony J. Drexel, the Philadelphia society leader, said that Christ was an athlete and would have played basketball had it been known in his time.

MINERS' CHIEF URGES PEACE

President White Confident Delegates Will Ratify Coal Operators' Agreement.

CONVENTION OPENS TO-DAY

Wilkes-Barre, May 13.—National President John P. White, of the United Mine Workers, arrived late this afternoon to preside at the convention of the anthracite miners which opens to-morrow and which will decide whether or not there is to be a coal strike. President White is hopeful that the organization will stand back of him and sanction the efforts of the subcommittee to bring about peace.

President White to-night met the tripartite executive. While their opinions are divided, President White told them as leaders they had a plain duty to perform in going among the men and enlisting their aid in a vote for the agreement as already signed.

The presence of President White had a good effect on the work of the committee, and when he got before the convention and informed the men that they are holding their own interests at stake in the signing of the ballots it is believed the delegates will ratify the agreement.

Peace in Illinois.

Springfield, Ill., May 13.—Peace in the Illinois mine field for another two years was assured to-day when talks canvassed the returns of the recent miners' referendum on the proposed contract and learned that the proposition had been accepted by a majority of approximately 10,000 votes. In all about 15,000 miners cast ballots in the referendum throughout the State.

The new agreements assure the miners a 3.25 per cent increase in day wages and in tonnage wages, while nearly all other conditions of last year's contract remain the same.

Scranton, Pa., May 13.—With a double force of police and State constabulary on guard, order generally prevailed throughout the anthracite fields to-day.

However, at Trip's Shop, in West Scranton, four little foreign boys and a woman were arrested for interfering with policemen who were on their way to work. The man was fined \$5 each. The woman was discharged.

BOSTON USES 'AD'

TO FILL \$4,500 JOB

Boston, May 13.—Because he can't find a successor at \$4,500 salary, Dr. Samuel H. Durgin, as head of the City Health Board, Mayor Fitzgerald has turned "ad" writer. He wrote this want advertisement for the City Record:

WANTED—PHYSICIAN, SANITARY ENGINEER, or other person experienced in this field to fill the job of chairman of the Boston Health Board; salary to start with \$4,500; must be ascertained. Apply JOHN F. FITZGERALD, Mayor, Boston, Mass.

The Mayor says he will recommend a boost in the salary to \$5,000 if the right man answers his "ad."

INTREPID MOUNTAIN CLIMBER.

Philadelphia, May 13.—Dr. W. W. Keen, the noted physician, father of Dora Keen, the intrepid mountain climber, has received a message from Mount Mansfield, Vt., saying that Miss Keen is safe. She is now on her way back to civilization from Mount Mansfield, the highest peak in New England, which she had climbed to ascend, but on which she was stranded with four guides after reaching an altitude of 12,000 feet, or 4,000 feet from the summit.

MISS DORA KEEN.

LOOTERS MENAGE FLOODED TOWNS

State Troops Sent to Bachelor, Fordoche and Grosse to Subside Them.

EXPECT CLIMAX WITHIN NEXT FORTY-EIGHT HOURS

Engineers Believe Danger Will Have Passed if Levees Hold Out Another Day.

New Orleans, La., May 13.—Additional peril has been added to the flood situation in Louisiana by an outbreak of colored looters in Bachelor, Fordoche, and Grosse. State troops may have to be sent to subside them.

The climax for the flood situation is expected within the next forty-eight hours, as the flood crest is expected to be reached some time during the night. The United States government engineers say if the levees hold until Wednesday all danger will have been passed. Nevertheless, damage to the extent of additional millions is anticipated from the waters pouring through the crevasses in the plantation and sugar belt, which will not be so soon probably for a week.

Back water from the Tensas crevasses has reached Lakeview, and fleet of boats was sent there to-day to rescue 350 persons marooned in the town. The situation at Morganza is also critical, due to the weakness of the levee at that point.

Three Deaths Reported.

Three additional deaths are reported. At Gilbert, Mrs. S. N. Dorsett, wife of a lawyer, was drowned when a canoe in which she and her husband were escaping capsized. Mr. Dorsett was saved.

At Estherwood, E. S. Upton and wife were drowned while en route to the rescue of several colored men marooned in a tree. Their boat upset in the swift current.

New Roads, La., May 13.—A convict laborer who was sent to service with other convicts to help strengthen the Mississippi levee at Morganza was shot by his guard while trying to escape to-day. According to a telephone message received by the chief of police here to-day, a second convict who tried to escape was captured.

CITY OF NEW ORLEANS

UNEFFECTED BY FLOODS.

DIRECTOR DAWES HEARS

G. Grosvenor Dawes, managing director of the Southern Commercial Congress, yesterday received the following telegram from Mr. B. B. Trevaunt, secretary of the New Orleans flood relief committee and New Orleans Progressive Union:

"The city of New Orleans is absolutely unaffected by the floods in the Mississippi Valley, though a number of the parishes of the State of Louisiana have been inundated and the floods have, therefore, wrought great damage outside of the city. New Orleans is being alleviated distress with contributions of money, clothing, and bedding, and the government with rations, and the State is aiding in relief work."

"No levees within 100 miles of New Orleans have broken, and all stories that this city is under water are the wildest sort of irresponsible canards. The United States, the State and city engineers agree that New Orleans will pass safely through the crisis and that the worst is now over. The greatest damage is the farmers' loss of opportunity to make crops and we are now working out a plan to begin the reconstruction of our agricultural districts affected, as soon as the waters recede. New Orleans, because of its peculiar defensive structure, is the only city in the Mississippi valley that has escaped the fact that Louisiana must protect herself from the flood waters of some thirty other States."

"The duty of the national government by broad and sound system of conservation at the head waters, such as contemplated in the Newlands river regulation bill. Why should Louisiana spend millions of dollars annually to protect herself from the waters which come from nearly two-thirds of the Union. Louisiana has spent \$50,000,000 out of the public treasury, and private individuals and railroads millions more for levee protection since the civil war. We earnestly urge the citizens of the United States and particularly the newspapers to give us the only outlet for their present contracts and join the strikers. The action was taken in a formal meeting of the local union with a similar vote taken informally some days ago. The pressmen a desperate effort to get the printers to join the walk-out. Newspapers to-day charge the failure to get a sympathetic walk-out by the printers has made their fight desperate. Newspapers to-day were printed and distributed under almost normal conditions."

WRECKED FISHERMEN

RESCUED AFTER SPENDING
WHOLE DAY ON ROCK

Brantford, Conn., May 13.—After spending twenty-four hours on Taunton Rock, about a mile off Brantford Harbor, with the sea dashing over them, making it impossible for them to reach the shore, Michael Richey and Joe Kles, molders, and C. Stata, a carpenter, employed by the Malleable Iron Company, were rescued at daylight this morning by C. P. Robert Latham on his launch Ellen.

The men went fishing yesterday morning in a rowboat. A heavy sea from the southeast drove their boat on Taunton Rock and they were unable to get away. They displayed signals of distress, and several launches from shore tried in vain to rescue them all day Sunday.

CROTHERS HAS GOOD NIGHT.

Elkton, Md., May 13.—The condition of former Gov. Austin L. Crothers, who is confined to his bed at his home here, suffering with Bright's disease, remains about the same to-day.

Mr. Crothers had a fairly good night's sleep and partook of a light breakfast of grapefruit and broth. His physicians, Drs. Cawley and Bratton, believe they see a slight improvement.

ASTOR GUARDIAN APPOINTED.

A. Perry Osborn to Look After Miss Marie's Affairs.

New York, May 13.—To facilitate the probating of the will of Col. Jacob Astor, Surrogate Fowler to-day appointed A. Perry Osborn as special guardian for Marie Astor, daughter of Mrs. Ava Waring Astor, Astor's first wife, and one of the minor heirs.

Guardians will also be appointed for Vincent Astor, the colonel's son, who becomes of age in June, and his widow, Mrs. Madeleine Perce Astor.

SOLOD WOULD PRINT A HERALD CARTOON IN CONGRESS RECORD

The vanity of Theodore Roosevelt as depicted in a cartoon in The Washington Herald was discussed in the Senate yesterday. Senator Stone of Missouri wanted to have the cartoon reproduced in the Congressional Record.

"There are two pictures of Roosevelt in the cartoon," said Mr. Stone. "One is an artist's hat and robe, boots and spurs, a brush and palette. He is looking with great admiration at another form depicted as an angel of destruction. The second is looking with approval upon the angel who has a miniature of him in each hand and choking them to death. One is labelled 'political boss,' and the other 'the trusts.' Beneath the cartoon is the caption: 'There is just one candidate whom it is possible to nominate against the bosses, and that is myself.' The cartoon should be modified and printed in the Record. He should substitute 'trusts' for the 'bosses' and 'McCormack' for the 'bosses.' He would have his feet planted on 'Money.'"

Mr. Stone asked unanimous consent that this modification be printed in the Congressional Record. It was made by Senator Stone of Utah.

"That shows the Senator from Utah is not such a Taft man as I imagined," observed Senator Stone. "He is playing the angel who has a miniature of him in each hand and choking them to death. It is not because I love Taft more or Roosevelt less, but because it would be improper in the Record," answered Mr. Stone, who as chairman of the Printing Committee is the guardian of the Record.

WOMEN'S VOTE IS BIG FACTOR IN PRIMARY ON PACIFIC COAST

San Francisco, Cal., May 13.—The unknown quantity of the women's vote is the big factor in the Presidential primary which will be held in California to-morrow. The result of the fight on the Republican side between President Taft and Col. Theodore Roosevelt is in doubt, though Roosevelt is the favorite.

According to R. H. Dewitt, head of the League of Women Voters, a Democratic political belief favor the nomination of Speaker Clark. Mr. Dewitt claims every county in the State for Clark, and predicts that the Missions will be held in California to-morrow. A particularly vigorous campaign has been made for Clark in the Southern end of the State.

YOUNG ASTOR TO WED

BEAUTY OF NEWPORT
IS SOCIETY RUMOR

New York, May 13.—Reports that Vincent Astor, who, upon attaining his majority next fall, is to take charge of the Astor millions, will marry Miss Margaret F. Andrews, daughter of Mr. and Mrs. Paul A. Andrews, were revived to-day.

Miss Andrews, who is now in Europe with her mother, but will return in June when she will be seventeen years old. She is a society beauty, and last summer was known as the best dressed girl at Newport.

During that season Vincent Astor was very attentive to her, as also was his chum, Herman Olrichs. Miss Andrews seemed to evince a decided preference for young Astor.

WORKERS MARCH BEHIND DRAPED FUNERAL CAR AS PROTEST TO POLICE

Los Angeles, Cal., May 13.—Trudging along slowly behind a draped funeral car on which rested the body of Joseph Mikolasek, slain by San Diego police nearly a week ago, 300 members of the Industrial Workers of the World made their way through the streets of Los Angeles to-day. The parade was a protest against the police against the killing of Mikolasek, who was alleged to have walked two policemen with an ax, the members of the order have been gathering here. The parade was the culmination of a protest against his so-called murder, and it was announced that whenever the service ended the Industrials would start back to San Diego to continue their free speech crusade.

CHICAGO TYPOS' ACTION

SAID TO HAVE KILLED
NEWSPAPER STRIKE

Chicago, May 13.—Newspaper publishers to-day predicted a speedy end of the strike of the pressmen, stereotypers, and wagon drivers, following the action of the typographical union in voting not to remain out of their present contracts and join the strikers. The action was taken in a formal meeting of the local union with a similar vote taken informally some days ago. The pressmen a desperate effort to get the printers to join the walk-out. Newspapers to-day charge the failure to get a sympathetic walk-out by the printers has made their fight desperate. Newspapers to-day were printed and distributed under almost normal conditions.

WRECKED FISHERMEN

Guardians will also be appointed for Vincent Astor, the colonel's son, who becomes of age in June, and his widow, Mrs. Madeleine Perce Astor.

ERIE SOLD CULM AT BIG SACRIFICE

Evidence Indicates Company Expected Something Besides Cash in Alleged Archibald Deal.

EXPERT GIVES TESTIMONY BEFORE HOUSE COMMITTEE

Mining Engineer Says Company Knew Value of Property When Option Was Given Williams.

That the statements incriminating Judge Robert W. Archibald, of the United States Commerce Court, by E. G. Williams, his confidential man, were not made under stress of great excitement or as a result of coercion practiced by the Boland brothers, and that, in the opinion of an expert, the Erie Railroad never would have agreed to sell its interest in the Katydul culm bank for \$150,000 unless it had been shown that the property was worth at least \$250,000, was the substance of the testimony given by a mining engineer before the House Committee on the Judiciary.

Two witnesses were called yesterday. Allan V. Cockrell, a confidential clerk of the Interstate Commerce Commission, who listened to the charges made by W. P. Boland and prepared the memorandum of Boland's statement presented to President Taft by Interstate Commerce Commissioner Meyer, and James H. Rittenhouse, a civil and mining engineer of Scranton, Pa., who was engaged by W. P. Boland, the Department of Justice investigator, to survey the Katydul culm pile and submit a report on its probable contents and value.

Discredits Coercion Defense.

The testimony of Mr. Cockrell will, it is believed, go far toward disproving any charges of coercion which the defense may advance in connection with Williams' testimony. Williams, in a statement made to the Attorney General, and later, in his first day's testimony before the House committee, admitted that he had signed a certain incriminating document, particularly an assignment of an option which mentioned a "silent party," and explained that the "silent party" was Judge Archibald. Under cross-examination, Williams turned on himself completely, denied that he knew the contents of the papers when he signed them, denied that he knew anything of the existence of a "silent party," and explained his statements before the Attorney General by saying that he was flustered and "wild" with fright, and left the committee in a state of confusion. Among other things, Williams said he did not know he was to confer with the Attorney General or that he was called to Washington in the Katydul case.

Present at Conference.

Cockrell, besides preparing the memorandum for Commissioner Meyer, which he later presented to the President, arranged for the conference between the Attorney General, W. P. and C. G. Boland, and Williams, taking the three men to the Attorney General's office and being present throughout the conference, at which every word spoken was taken down and transcribed by a stenographer. Cockrell testified that Williams knew they were at the conference.

Cockrell, besides preparing the memorandum for Commissioner Meyer, which he later presented to the President, arranged for the conference between the Attorney General, W. P. and C. G. Boland, and Williams, taking the three men to the Attorney General's office and being present throughout the conference, at which every word spoken was taken down and transcribed by a stenographer. Cockrell testified that Williams knew they were at the conference.

Continued on Page Six.

ILLINOIS STORM COSTS TWO LIVES

Men Blinded by Driving Rain Walk in Front of Street Car in Chicago.

Chicago, May 13.—Heavy damage was reported to-day as a result of a storm that swept Lake Michigan yesterday, while two men here are dead. The three-masted schooner Quicksilver, which nearly went down outside the harbor, was towed in after a five-hour battle with the gale, is badly crippled. Damage occurred along the entire lake front, and at Indiana Harbor, at the southern end of the lake, where the northeast gale had full sweep, the loss will reach into thousands of dollars. Aldis Avenue, the lake front drive of that city, was undermined by the tons of water which were hurled against it, water mains and gas pipes torn out, and residence property heavily damaged.

The two men who lost their lives in Chicago were blinded by the driving rain and walked into the path of a passing street car.

The rescue of the schooner Quicksilver was accomplished only after it was feared the vessel and her eleven men would be lost. A life-saving crew sighted the vessel and put out in a lifeboat. The schooner's captain asked for a tug. Tug firemen and engineers were on strike and refused to take their boats out. Capt. Young, manager of the Great Lakes Towing Company, volunteered to handle one of the tugs himself, and with the members of the life-saving crew to man the tug, brought the schooner in.

Cabinet Pledges Reforms.

Pekin, May 13.—All Cabinet members appeared before the Provisional Council to-day and gave assurances that they would introduce reforms in administration and modern development at once. These will include trial by jury, reorganization of the army and navy, a general system of education, a revision of the methods of taxation, and the establishment of a national bank.

"Jack the Ripper" at Work.

Pennsylvania, Pa., May 13.—A "Jack the Ripper" who has been operating in Southern cities is now being sought here as a result of the murder of Eliza Lee, who was cut to pieces in her home. The slayer is charged with at least twenty other deaths.

Cavalry Pursues Bandits.

Bolton, British Honduras, May 13.—Honduran bandits who carried off six young women, all British subjects, from Bulet Tree, are being pursued into the mountains by the cavalry.

Athlete's Father Is Dead.

New York, May 13.—William Bonham, father of George Bonham, the amateur champion runner, died suddenly to-day. It is understood that Mr. Bonham's death will prevent his son from competing in the Olympics.

BEAT BOY TO DEATH.

Boston, Mass., May 13.—Mrs. Jennie O. Wentzell, of Lynn, was sentenced to fifteen years in the State prison to-day when found guilty of the charge of manslaughter in causing the death of her four-year-old nephew, Charles Beaupre. Repeated beatings she gave the little boy caused his death.

BOTH CLAIM STATE ON ELECTION EVE

Taft and Roosevelt Campaign Managers Say Their Candidate Will Sweep California.

LOOKS EASY FOR CHAMP CLARK

San Francisco, May 13.—Indications are that a very heavy vote will be polled throughout the State in to-morrow's Presidential primaries. The campaign has been one of the hardest fought in the history of California politics, and added to this feature is the fact that women will be given their first opportunity to vote at a general election. Under the direction of party leaders women's clubs have been formed in every section of the State, and the members have taken a lively interest in the campaign.

It is predicted to-night that women will cast from 30 to 40 per cent of the total vote. Champ Clark, Speaker of the House of Representatives, and Gov. Wilson of New York are the opposing candidates on the Democratic ticket. Returns from all parts of the State indicate a Clark victory by an overwhelming majority.

His strength is particularly apparent

in the central and northern parts of the State, where it is believed his majority will be 2 to 1. In Southern California Wilson is expected to make a better showing, but according to figures received by R. H. Dewitt, manager of the Clark campaign in California, Wilson will not carry a single county, even in that section of the State.

The Republican voters will have three candidates to select from—Taft, Roosevelt, and Senator La Follette. La Follette appears to have no chance of success, but Taft managers are counting on his casting a sufficient number of votes to defeat Roosevelt and give to Taft the Republican delegation to the Chicago convention.

Jerome Stetson, in charge of the Roosevelt campaign, claims 10,000 plurality and 250,000 majority in the State for the former President, while Charles M. Hammond, in charge of the Taft campaign, claims a plurality of 35,000 for the President.

Estimates coming in from unbiassed quarters indicate that Roosevelt will win a California delegation by a greatly reduced plurality over the claims of his managers.

FEDERALS HAVE ADVANTAGE.

The federal army numbered several hundred less than 5,000 men when the day's operations were begun, and they had the advantage in armament as well as having completely captured practically all the artillery of the rebel batteries.

Orozco selected Ballan for his new base after having been whipped at Colson. He had a large number of men, but found his mistake too late.

Bolton, Mexico, May 13.—Gen. Orozco's

last stand against Gen. Huerta's advancing federal army will be made here in the same trenches from which the rebels beat back with heavy losses the government army of Gen. Gonzalez Balas. Reports received from the army transport Buford yesterday state that conditions are serious in Culiacan and the surrounding districts. The Buford now has on board more than 300 refugees and seventy more are expected to board her at San Blas, whether she is now proceeding.

The fight from Mexico of Emilio Vasquez against the self-proclaimed President of the provisional government, is continued.

ARREST STRIKERS AFTER MANY RIOTS

Baltimore Longshoremen Clash with Men Who Take Their Places.

Baltimore, Md., May 13.—Following an order from the New York headquarters of the National Transport Workers' Federation of America this morning calling out the union men, stewards, cooks and deckhands working on ships in the Boston, Newport News, and Norfolk harbors, in sympathy with the striking longshoremen here, rioting and violence broke out here at the Locust Point piers, where revolvers and shotguns of both sides were used and strikers clashed.

Six strikers were arrested and fined for carrying concealed weapons.

The following corporations, doing a vast trade, are affected by the order: New England Coal and Coke Company, Consolidation Coal Company, Hartford Transportation Company, Atlas Coal Company, and Baker-Whitney Coal Company.

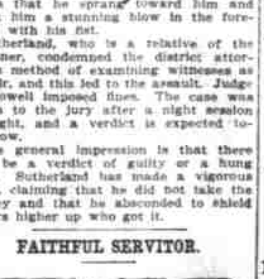

No other trade is affected by the walk-out, but the extent of the effect on the coal traffic is an absolute tie-up, involving even the crews of two boats.

BRANDT CASE TO HIGHER COURT

New York, May 13.—J. W. Bryan, lawyer for Folke E. Brandt, the former valet of Mortimer L. Schiff, took the first step to-day to carry the conviction to the Court of Appeals. Mirabeau E. Tamm, who sits on the first bench, was out of town. After consulting with Justice Ingraham, of the Appellate Division, regarding the form of the order to be obtained, Bryan called Tamm on the long-distance telephone and discussed the points to be covered in the appeal.

It had been planned to take up the matter at the Appellate Division, but, on account of Tamm's absence, it was decided to postpone the whole matter until the same time to-morrow.

FAITHFUL SERVITOR.

THOMAS WADE.

Whose years of faithful service as steward to John Jacob Astor was rewarded in the deceased multimillionaire's will by a bequest of \$250,000. It is interesting to note that Wade said: "I would rather have Col. Astor back than his money."
